BLUMEN Web Training

Compansol offers training sessions to all our customers at your office location through the convenience of the web. A Blumen trainer will conduct an in-depth training over the internet and phone for the benefit of your staff members. It is the most cost effective way to reduce the learning curve and to enhance productivity and maximize your return on investment.

Training is available as the schedule of the training personnel permits. Contact Compansol to verify availability.

We recommend that training session should not exceed 2 hours in duration for best results. Training can be divided into multiple 2 hours sessions if you will be placing an order for more than 2 hours in total.

We deliver a standard training course that is tailored to meet your day to day requirements. If you believe that the standard training does not meet your needs, we can deliver a completely customized course that addresses only issues critical to your project.

The cost for the training will be as follows:

\$ 250.00 per hour as a training fee billed to the customer, confirmed with a purchase order and the attached form signed by the Project Director.
